Care and handling of Millwork

Unfinished woodwork is vulnerable! Apply finish as soon as possible following the manufacturer's finishing instructions.

Never expose unpainted millwork to direct sunlight!

Always protect unfinished millwork from moist conditions. Never store on the ground, on concrete or where rain can blow in.

All mouldings should be stored horizontally off the floor and in a dry location.

It's critical to protect millwork from direct sunlight prior to finishing to avoid rapid drying and bleaching. Even a few hours exposure to direct sunlight causes drying and bleaching. Millwork must be stored in a dry area away from excess heat. Never store on the

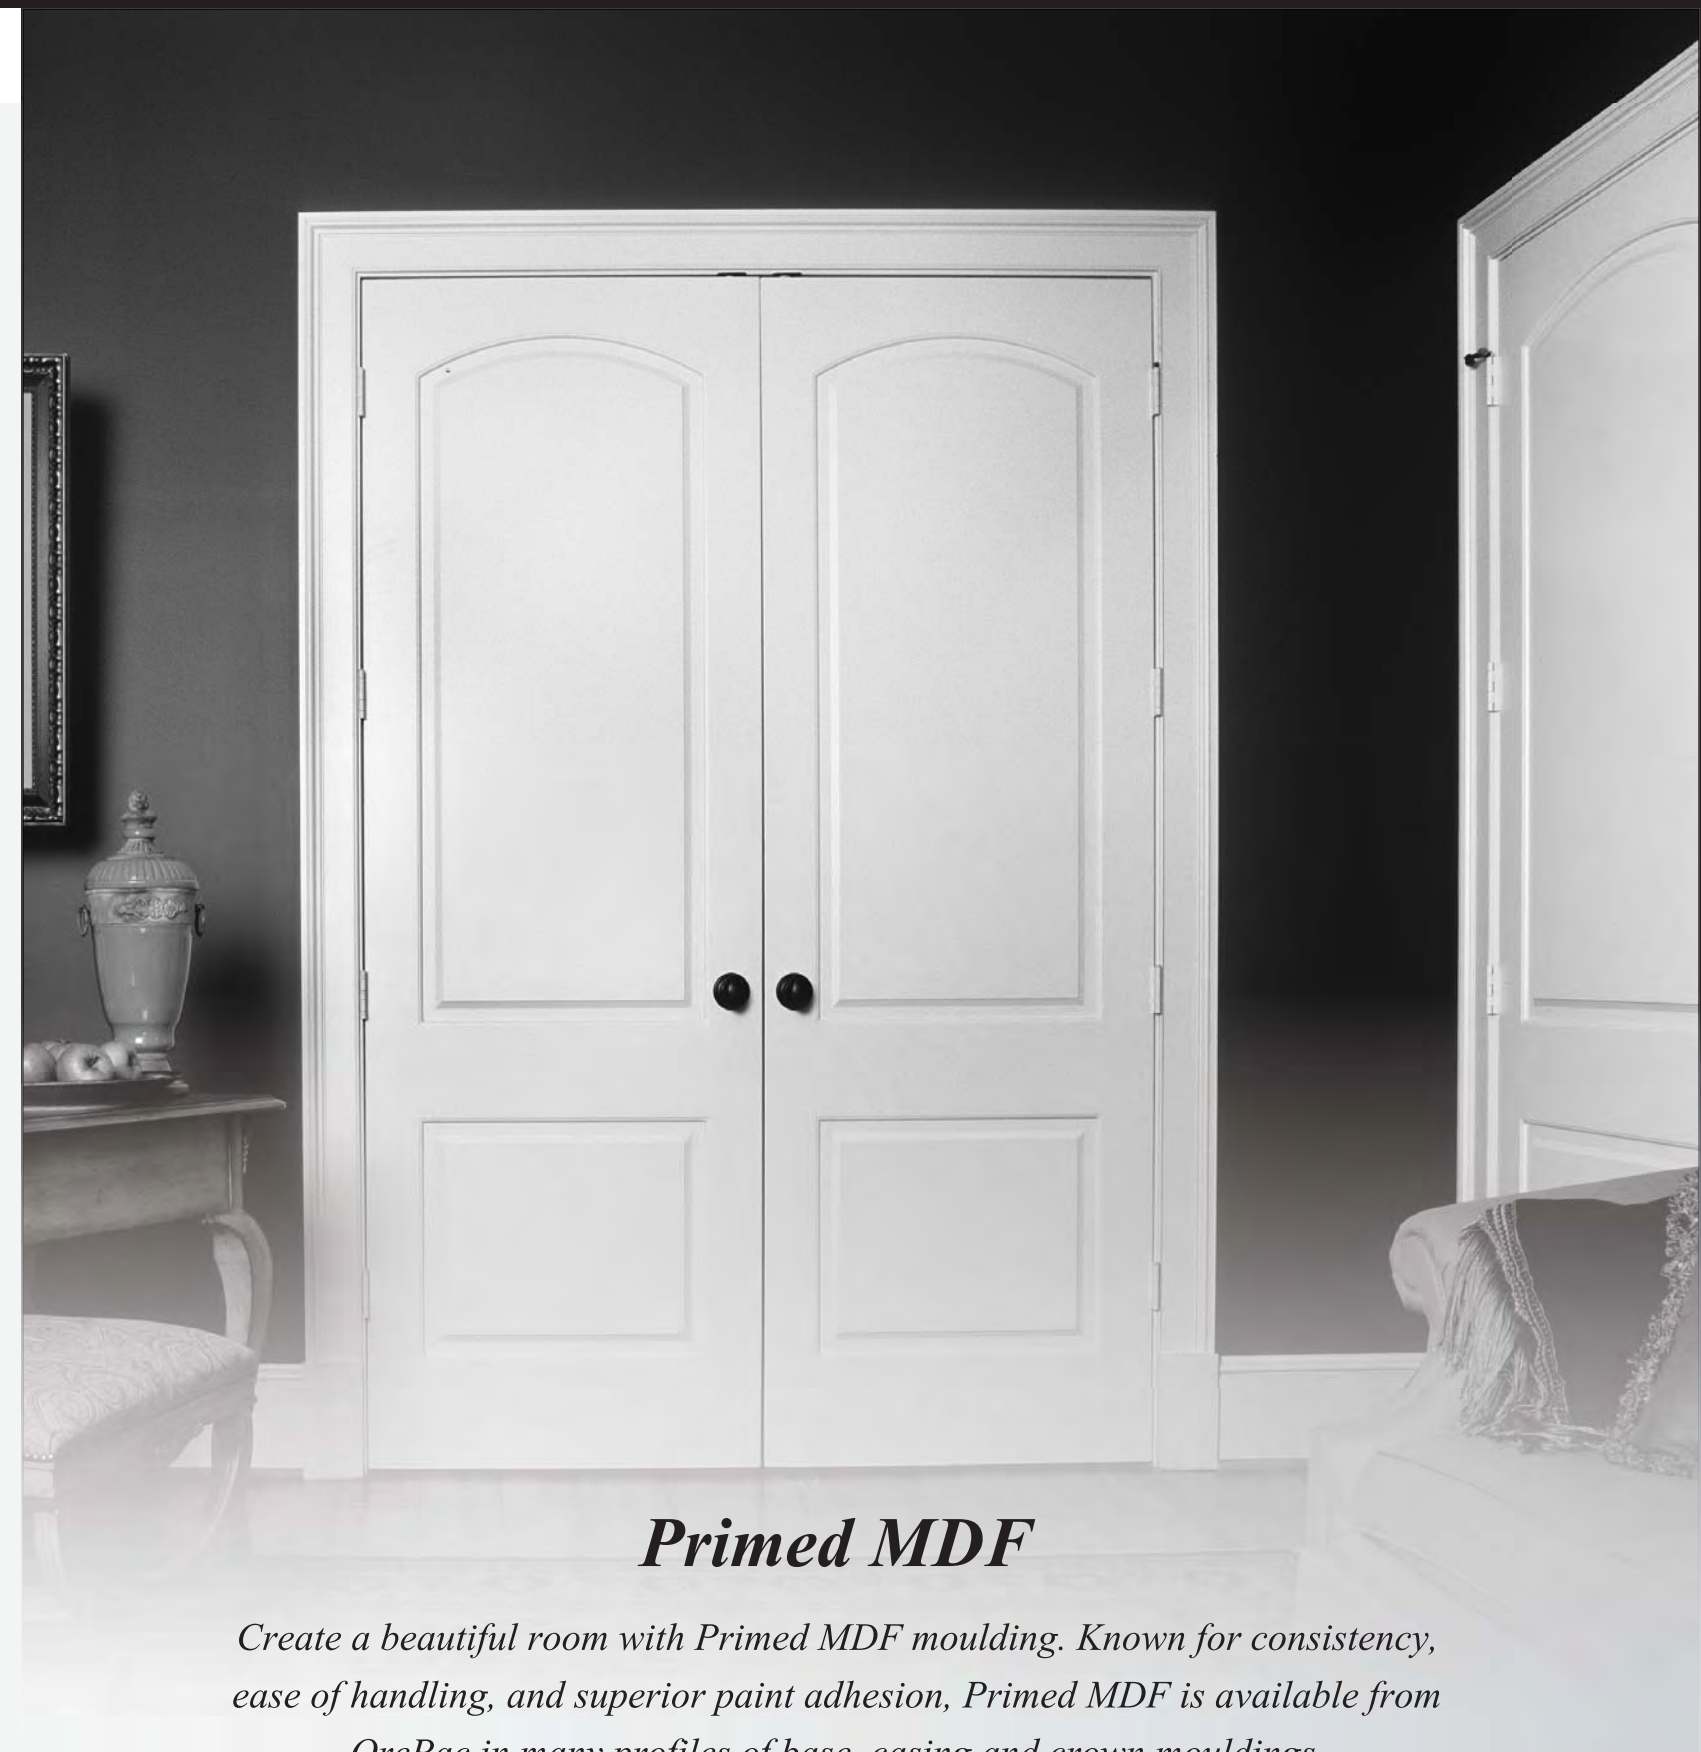

ground, nor allow wood to come into direct contact with concrete. The natural tendency of concrete to absorb moisture can create a "wicking" of moisture out of the air or the ground and into the wood.

Mouldings must be acclimated

72 hours prior to installation, mouldings should be unbundled and allowed to acclimate to the environment in the room in which they will be installed, with a controlled humidity level. The humidity at the time of acclimation should be similar to the humidity expected upon occupancy of the project.

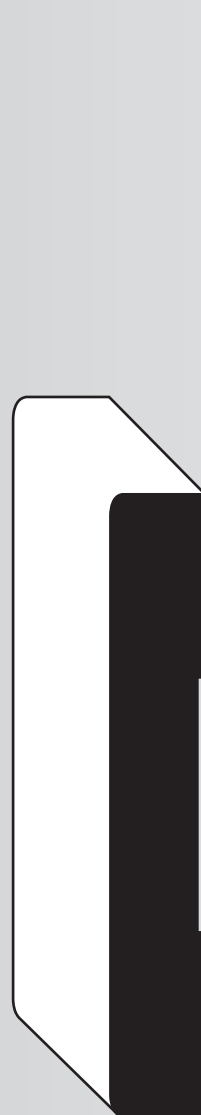

Finishing

Light sanding is required prior to finishing. Follow manufacturer's recommended instructions for your product type.

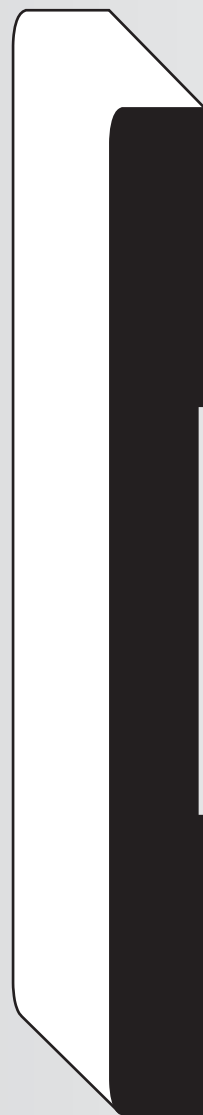

Primed MDF

Create a beautiful room with Primed MDF moulding. Known for consistency, ease of handling, and superior paint adhesion, Primed MDF is available from OrePac in many profiles of base, casing and crown mouldings.

Solid Pine

Base

Solid Pine

*For durable, solid wood mouldings select Solid Pine from OrePac.
Our Solid Pine moulding program features Ponderosa Pine for more stable
performance. Solid Pine mouldings are versatile and a good selection when you
plan on staining your moulding either light or dark tones.*

Oak

Base

Solid Oak

For a classic look select OrePac's Solid Oak mouldings. Solid Oak is a very hard, stable wood, great for stain projects and to match up with your Oak cabinets.

Knotty Alder

Create a rustic mountain look with Knotty Alder mouldings. OrePac manufactures its own Knotty Alder mouldings to ensure product quality and consistency. At OrePac, we run Premium Grade Knotty Alder moulding which provides a better finish and more usable wood. This saves you time and money on the job-site.

Choose Knotty Alder mouldings from OrePac for great quality and selection.

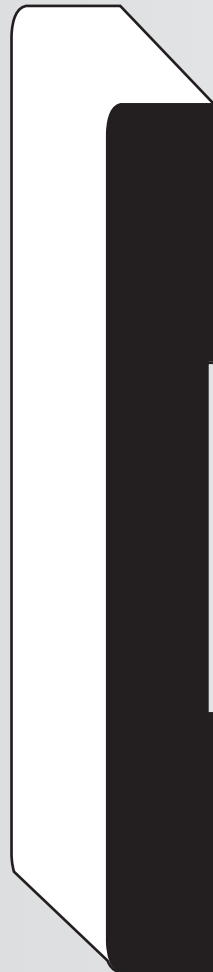

We also have Knotty Alder doors to complete the room.

Hemlock

Hemlock door components from OrePac are a great match with our Hemlock interior and exterior doors. Hemlock millwork is a good selection if you plan on staining your jamb and frame components. In addition to our Hemlock door components stocked locally in Denver, CO, we also stock a large selection of Hemlock moulding profiles at our Northwest facilities and are able to ship those to Colorado.
